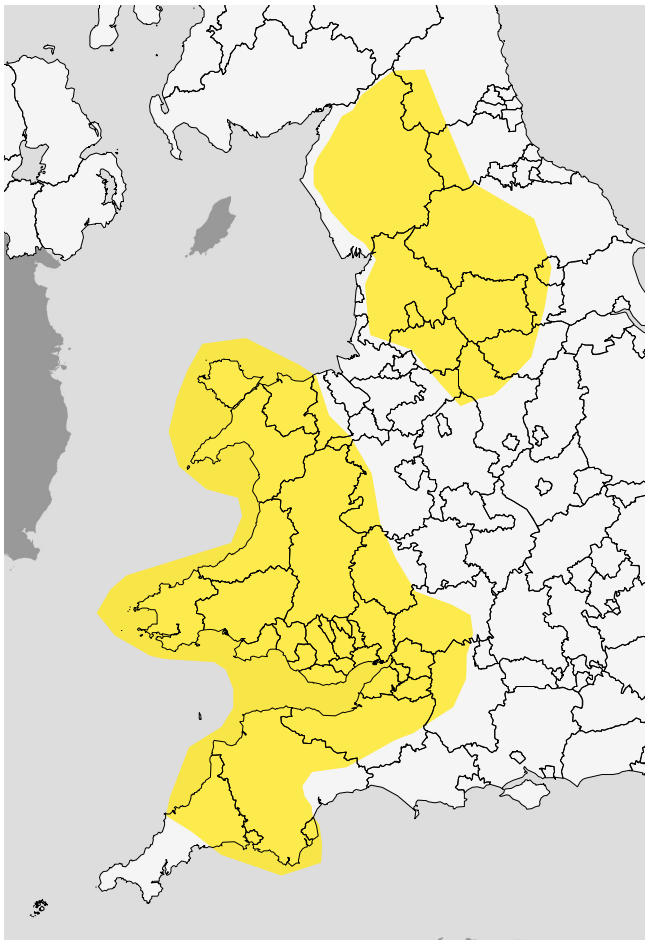
Yellow warning
Rain

Between
18:00 Sat 26 Dec 2020 and
09:00 Sun 27 Dec 2020



Heavy rain combined with strong winds may lead to some disruption and flooding in places.

What to expect

- Spray and flooding will lead to difficult driving conditions and some road closures
- Where flooding occurs, there is a chance of delays or cancellations to train and bus services
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings, this more especially in parts of Wales
- There is a small chance of fast flowing or deep floodwater, particularly in parts of Wales.

Further details

A spell of heavy rain will accompany the very strong southwesterly winds later on Saturday and early Sunday.

15-25 mm is likely to fall widely across this area with the potential for 40-60 mm over some hills, much of this within 6 hours.

Recent wet weather and saturated ground makes this area more sensitive than usual to further heavy rainfall, especially across parts of Wales.

Very low likelihood of medium impacts

Yellow warning
Rain

Between
18:00 Sat 26 Dec 2020 and
09:00 Sun 27 Dec 2020

Reason for update

The warning area has been extended across more of northern England and the Midlands, to cater for some lower impacts in these areas. Wales is singled out for a greater likelihood of medium impacts.
